---

This puzzle has several steps:

1. Notice that there are several organs and body parts marked on the dolls. These are all five letters long. They are ANKLE, BRAIN, ELBOW, FEMUR, HEART, and WRIST.
2. The back can be filled in with letters from the Round 1 answers, enumerated as per the meta page sheet (“coordinates” of (answer, letter in answer)).
3. If you arrange the dolls correctly, you can read down from the body part, through the doll (hence the pins), and spell the body parts.
4. Reading the letters on the other side, and arranging by alphabetical order of body parts, you get the solution phrase: ALLDOLLEDUPANDNOWHERETOLARGO (“all dolled up and nowhere to Largo”).
