

# Tunnel Vision

Nathan Curtis

This is the metapuzzle. It was not explicitly labeled as such, which caused some confusion among solvers. The pictures are taken from the painted tiles in the art installation in the tunnel leading to the Davis Square T station, but the names on the tiles have been changed. Solvers will first need to find the original tiles to determine the real names for each tile:

Fake Name	Real Name
Ignazio Arragiottini	Charles Dube
Billy Spettyfair	Yuk Po Lee
Dalal Medlidib	Kathy Cameron
Darlene Cortewood	Michelle Eldred
Scott Pantrendt	Billy Petras
Michelle Durelinden	Scott Trant
Yuk Po Elterey	Barbara Andre
Charles Debontus	Darlene Tower
Barbara Derrelana	Dalal Mlid
Kathy Crementalloy	Dukens Venord
Dukens Trandelhov	Ignazio Ingriati

Solvers may notice a couple of things: Each fake tile has the same first name as one of the real tiles, and the last name on the fake tile in each case has all the letters of the last name on the real tile, plus four extra letters. In order to proceed further, solvers will have to realize that each answer can be paired with one of these name pairs, such that the fake last name has all the letters of the answer plus two letters, and the answer has all the letters of the real last name plus two letters. Additionally, pairing tiles that have the same first name in the fake and real versions creates a chain from tile to tile. The fake tile with Billy Spettyfair's name has a green circle added to it; this suggests a starting point (green light). Starting with Billy Spettyfair (fake), then going to Billy Petras (real), Scott Pantrendt (fake version of Billy Petras's tile), and so on, we get the following chain:

Fake Name	Extra	Answer	Extra	Real Name
Billy Spettyfair	FI	TAPESTRY	TY	Billy Petras
Scott Pantrendt	ND	PATTERN	PE	Scott Trant
Michelle Durelinden	UN	REDLINED	IN	Michelle Eldred
Darlene Cortewood	OD	COWROTE	CO	Darlene Tower
Charles Debontus	OS	BUNTED	NT	Charles Dube
Ignazio Arragiottini	AT	IRRIGATION	RO	Ignazio Ingriati
Dukens Trandelhov	TH	LANDOVER	LA	Dukens Venord
Kathy Crementalloy	EL	CLAREMONT	LT	Kathy Cameron
Dalal Medlidib	IB	MIDDLE	DE	Dalal Mlid
Barbara Derrelana	RA	LEANDER	LE	Barbara Andre
Yuk Po Elterey	RY	TEELE	TE	Yuk Po Lee

The two chains of bigrams spell **FIND UNODOS AT THE LIBRARY** and **TYPE IN CONTROL ALT DELETE**. Following these instructions will disable UNODOS and complete the hunt.
