Hazard

SPEED LIMIT  
EIGHTY SEVEN

Cut out the pieces and fold them into tetrahedra and octahedra. Then place the faces with the same shapes together, resulting in a larger octahedron with letters and a few other symbols all around the outside:

Looking around each vertex, there is a ring of letters that spells a message, as highlighted above. When properly assembled, these messages read:

WORD ONE SPEED  
WORD TWO LIMIT  
WORD 3: EIGHTY  
4TH WORD SEVEN  
FLOWER WREATH  
THREE LETTERS

Together, this gives the hazard **SPEED LIMIT EIGHTY SEVEN** and clues the password **LEI**.
