

## Genetics Laboratory

*Fuzzkin Fun Fact #55: Fuzzkins are all unique! In fact, their genetic codes are so different, you can't form hybrids of two different Fuzzkins! Will it blend? No.*

We thought that it was propoganda, but it seems like Fuzzkin "DNA" is more akin to a miniaturized chemistry logic puzzle. That said, we're seeing some preliminary success by splitting the DNA in two and recombining afterwards.
