

SUISSE SURVEYING

Head outside Harvard's gates over to The Carpenter Center for the Visual Arts, where we've set up the grid for this puzzle. There we frosted some windows out of a rectangular bank of windows (the lowest of four banks on one face) to produce a grid.

Now that it's April, you might have a hard time telling which windows had been frosted. Maybe the clues by themselves will be enough, or maybe you should find the building to at least get the grid size. Oh, and you should know that the grid has standard crossword symmetry, with 1-Across starting in the fifth square of the top row.

Across

1. Stir-fry vessel
4. Edge
7. Explorer on children's television
8. Furry "Return of the Jedi" critter
10. Completely tank: 2 wds.
12. Carries
