

ה ש נ ג ר

Open me up, and put in the
words from the solutions
in a suitable code.

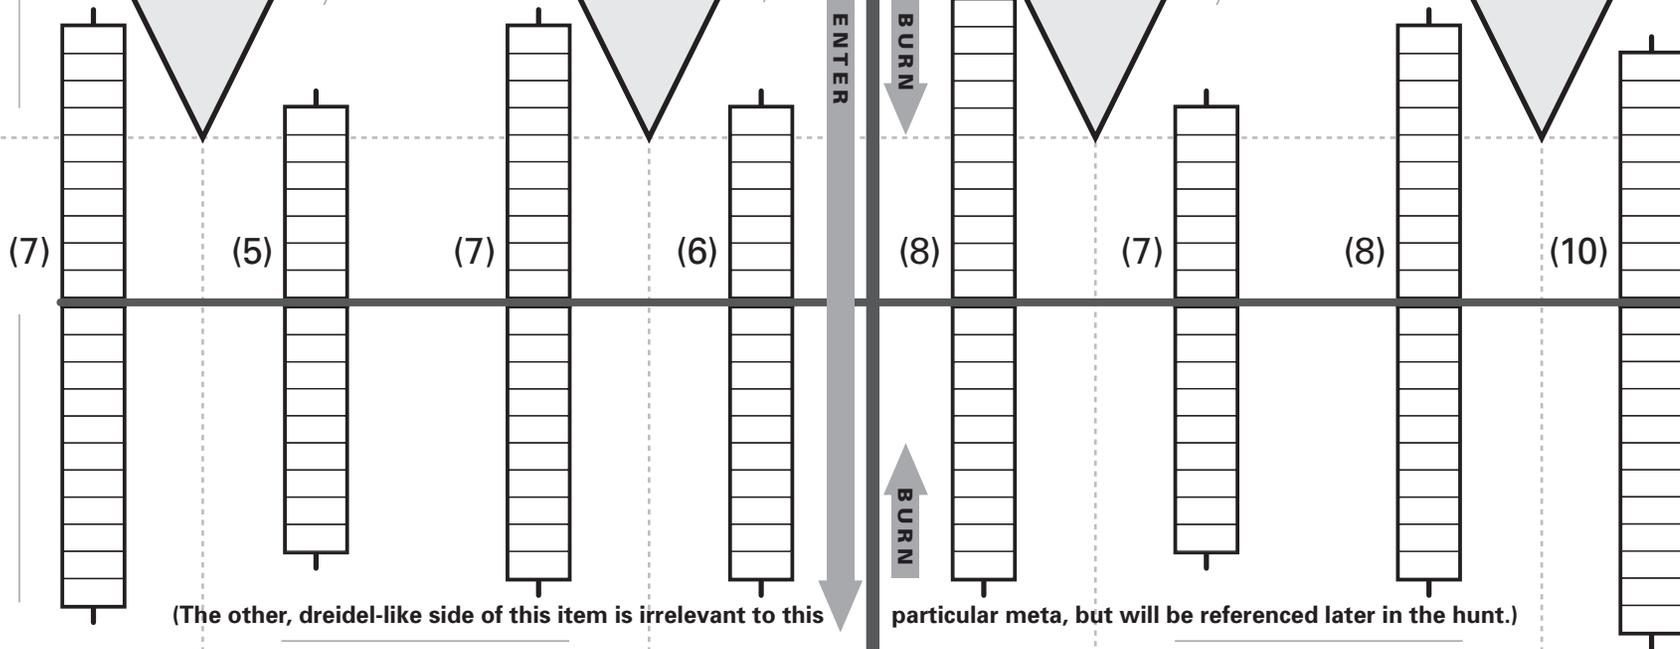

HANUKKAH META —
dreidel side

print this on cardstock
back to back
with menorah side

TOP OF PAGE

1) cut the 10 slots (gray hairlines) with a razor for tabs to fit into

2) cut out entire white shape along black outer border with scissors

these tabs do NOT fold

(The other, dreidel-like side of this item is irrelevant to this particular meta, but will be referenced later in the hunt.)

HANUKKAH META — menorah side

print this on cardstock back to back with dreidel side

Our candles burn at both ends;
 All ends at once ignite,
 Then burn an equal time, my friends,
 To bring some words to light.
 You must deduce how long, though;
 One fact we will provide:
 Thin candle segments (shaped like so ●)
 Burn half as long as wide (■). (2 4 6 4)

- 3) fold along the gray dotted lines INWARD towards yourself
- 4) insert the tabs into their corresponding slots and assemble into dreidel shape

(While we gave these to teams preassembled, you could just solve the meta using the alternate streamlined version of this print out ... but why not enjoy the fullest BAPHL XII experience possible and make your own dreidel-menorah?)
