Build-a-Maze Workshop

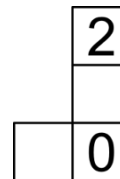

A Dopey Puzzle

Shakespeare in the Square*

Splitting Image

*** This puzzle has site-specific elements.**

Minesweeper: Each square in the grid is either empty, or contains a mine. Numbered squares **may** contain mines; the numbers represent the number of mines found in any adjacent square, including diagonals and the numbered square itself. For the final metapuzzle, puzzle answers from Tech Square go in the squares that contain mines.
