

A former welterweight champion welcomes you to the North End. Wry tangles or left hooks, Boxer or Baker, the victor, *moving across the field like an unchecked knight*, starts strong, and finishes... sated on Italian food?

At the start of Hanover Street, look for the statue of Tony [1E], “The [5N] & [22E] of Fleet Street”

Each answer in this puzzle will make one 90° turn somewhere along its length. The starting square for each answer is given, as are its directions (North, East, South or West). Most letters are used twice, except for the ones used in the hidden answer. None of those share a column or row.

Once the board is filled, you start at the white knight position, and use “knight’s tour” directions as indicated to connect the unchecked letters (none in a common row or column), to find the answer: **FORCEFUL**
