# Underground Husbandry
Author: Ryan Maloney

       To solve the puzzle, first determine which hybrids end up in each position. You will then have ten 2x3 grids (the treasure rooms) populated with the different hybrids. The animals positions in the treasure rooms make Braille letters. By ordering the letters based on the list in the puzzle, you get the following.

1. The one with the **Bear-Mole (C)**
2. The one with the **Spider-Bat (R)**
3. The one with the **Turtle-Rabbit (O)**
4. The one with the **Mole-Rabbit (S)**
5. The one with the **Bear-Spider (S)**
6. The one with the **Turtle-Sloth (B)**
7. The one with the **Mole-Sloth (R)**
8. The one with the **Rabbit-Sloth (E)**
9. The one with the **Turtle-Spider (E)**
10. The one with the **Spider-Fish (D)**

The final answer is thus **CROSSBREED**

In 2 Moves (Order 1, Letter C)

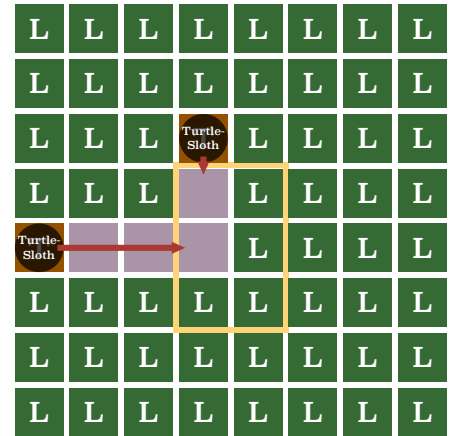

In 3 Moves (Order 2, Letter R)

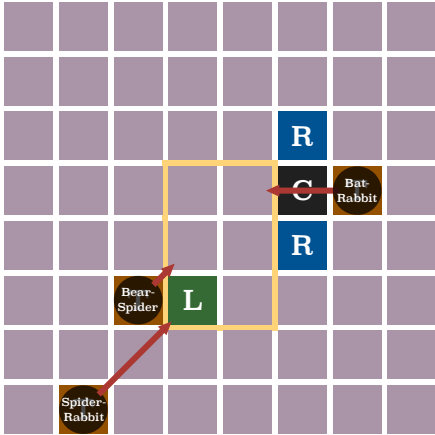

In 2 Moves (Order 4, Letter S)

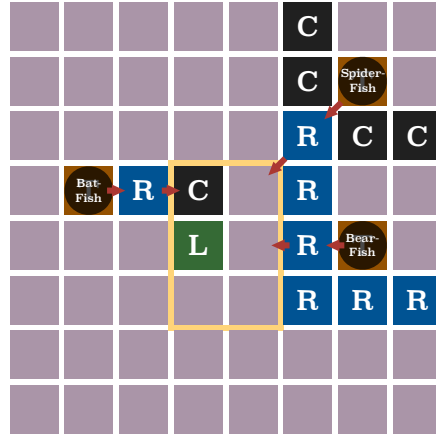

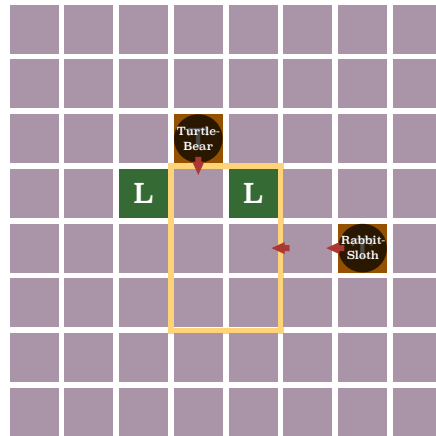

In 1 Move (Order 7, Letter R)

In 1 Move (Order 5, Letter S)

In 3 Moves (Order 6, Letter B)

In 1 Move (Order 5, Letter S)

In 2 Moves (Order 10, Letter D)

In 3 Moves (Order 9, Letter E)

In 1 Move (Order 8, Letter E)
