

# Beyond the Sea - Solution

Authors: Oliver Cheng and Matt Gardner Spencer

The entries in the left-hand column each clue a wacky two word phrase with precisely one 'C'. As indicated in the flavor text, we swap out the 'C' for another letter to get a word clued by some entry in the right-hand column. Reading the new letters in the order of the left-hand column gives: Angry Aviator. This clues MAD ACE (which fits in the spaces at the bottom). Once more, we must swap out the 'C' for the only letter that creates a word: **MADAME**
