There is a unique solution path that lets you visit each of the four treasure tiles before they sink, and then return to Fools' Landing.

You are instructed to draw a treasure card after each move. Use the number as an index into the answer on the tile you step on. This gives you the following:

Treasure Cards

Consider the letters extracted from each type of treasure card separately; each set forms a word. Read the words off in the order that you collected the treasures to find that you must **BRIBE THE AIRPLANE CAPTAIN** with your hard-earned loot, to convince him to fly you off of Forbidden Rhode Island.
